

SECURITY ASSURANCE SERVICES

Valencia IIP: our name and our focus is Information & Infrastructure Protection. What makes us different is our holistic, integrated perspective.

Valencia IIP offers a comprehensive range of cyber-security services to protect your organization's information and infrastructure. We reveal vulnerabilities, find weaknesses, and help your organization minimize security risks.

Whether across the enterprise or limited to a specific service or system, Valencia IIP helps your organization address your application, mobile, network and embedded device security needs.

Our security assurance services consist of:

- ◆ Developing information security programs including policy development, operations integration as well as training & knowledge transfer.
- ◆ Conducting:
 - ◆ Threat and risk assessments for systems and services using Canadian and International standards
 - ◆ Application Security Assessment and Security code reviews
 - ◆ Vulnerability Assessment and Penetration Testing, including 'red team' and 'purple team' exercises
 - ◆ Open source intelligence and social engineering
 - ◆ Security Certification and Accreditation, including ISO 27001/27002, and Canadian standards
- ◆ Providing guidance on cybersecurity insurance requirements and selection
- ◆ Business Continuity and Disaster Recovery Planning
